

Delaware State University Recycling Program

For Additional Information, please contact:

Ms. Rosetta Brickhouse, Director of Custodial & Grounds

Mr. Howard Gibson, Assistant Director of Custodial & Grounds

Recycling Initiative

- Delaware State University has been awarded a DNREC grant totaling **\$92,965.50**
 - Cycle 7 awarded \$42,048.00
 - Cycle 8 awarded \$50,917.50
- Grant Goal
 - Reduce the tonnage of waste going to the landfill by 30%
 - Meet the needs of the Comprehensive Recycling efforts for the State of Delaware
 - Comply with DSU Recycling Policy

Mr. Howard Gibson, Associate Director for Custodial & Grounds, Delaware State University

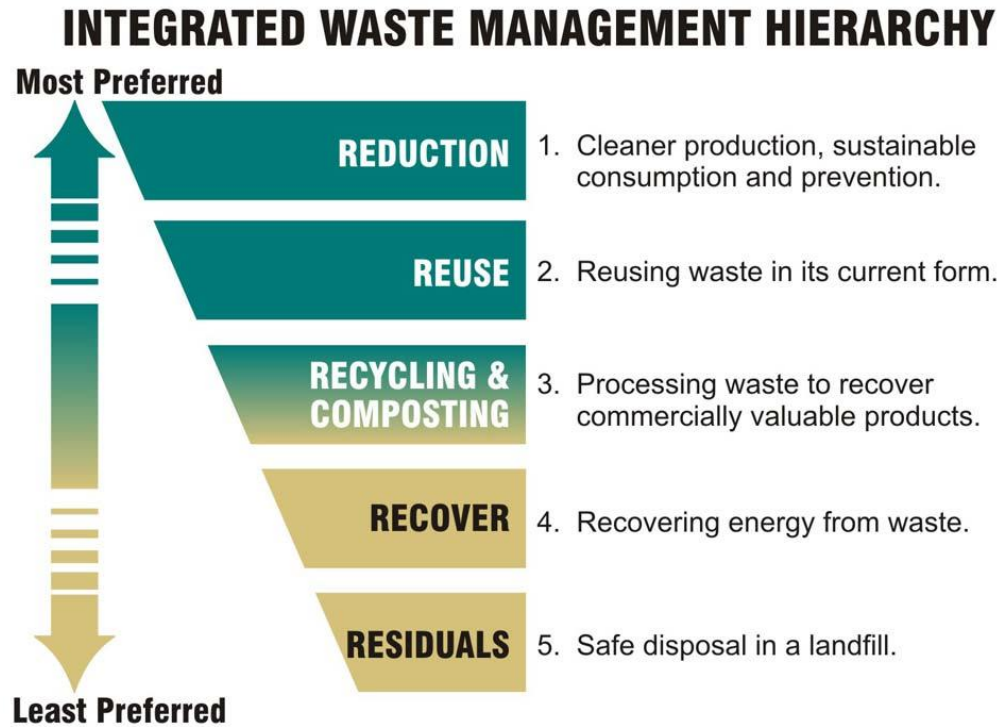

Ms. Rosetta Brickhouse, Director for Custodial & Grounds, Delaware State University

Governor Jack Markell, Delaware

Dr. Rebecca Fox-Lykens, Director for the Center for Teaching & Learning, Delaware State University

Recycling Initiative

- **REDUCE**

- Purchase, consume, and throw away less

- **REUSE**

- Reusing items by repairing, donating, or selling them. Reuse is even better than recycling because items do not have to be reprocessed before they can be used again.

- **RECYCLE**

- **Single Stream**
- If you are not buying recycled products you are not recycling!

Recycling at DSU

DSU will be doing Single Stream Recycling

That means all your recycling items can be placed in one receptacle.

Recyclable items include:

- Paper (NOT SHREDDED), we will continue to use Data Guard pick up for shredded paper, please only shred paper that contains confidential information, all other paper can be placed in recycling.
- Cardboard, please break down as much as possible before placing in recycling.
- Aluminum soda cans, plastic bottles, glass bottles, magazines
- Aluminum food cans, completely empty all food waste from can
- Completely EMPTIED plastic or cardboard milk or beverage containers

Recycling at DSU

DO NOT PLACE THE FOLLOWING ITEMS IN RECYCLING

- Shredded paper
- Styrofoam
- **ONLY clean, plastic or cardboard food containers.** If the food container has left over food or food residue, do not place in recycling. A grease spot on a cardboard food container is fine
- Plastic bags, plastic film wrap, paper towels, kleenex

INTERIOR CANS

- You will see 14 quart & 41 quart cans around campus
 - 14 quarts will be placed in dorm rooms and offices
 - 41 quarts will be placed in copy rooms, conference rooms, & larger classrooms

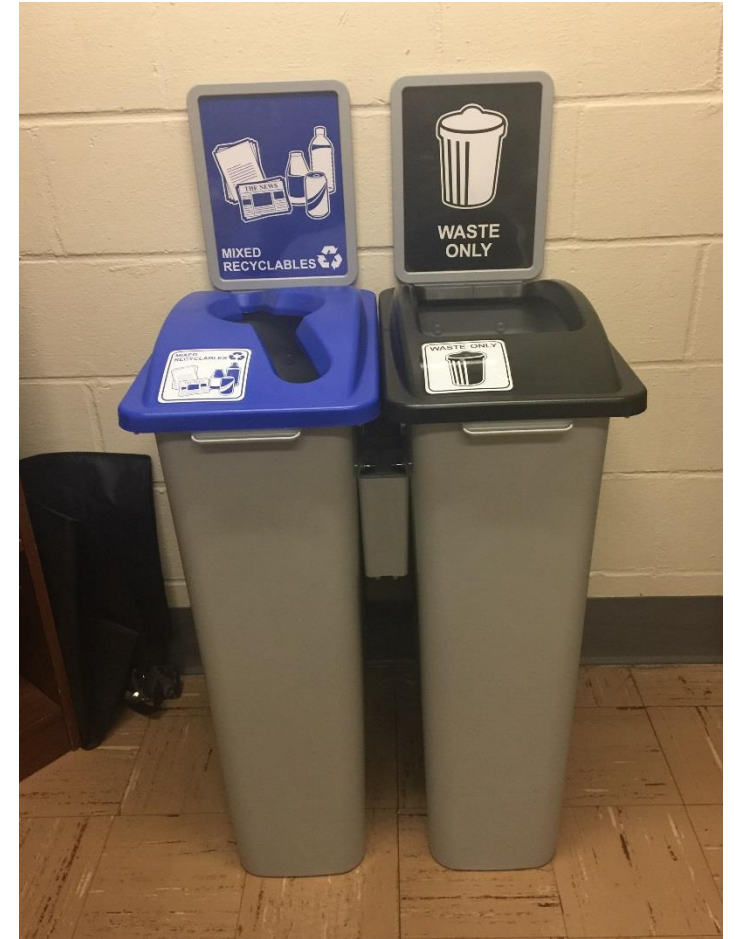

INTERIOR CANS

- 16 gallon dual stations
- 23 gallon dual stations

The supply of these receptacles are limited and will be found in hallways, open areas, large meeting rooms and/or auditoriums.

EXTERIOR CANS

- Exterior cans will be placed throughout the campus
 - Alumni Stadium
 - Outdoor Basketball court
 - University Village Apartments
 - Outside MLK Student Center
 - Various locations throughout the campus

Recycling Pick up

Custodial Staff will be removing recycling items on Tuesday and Friday mornings , only. Please let them know where recycling items are placed if you are separating your trash but have not received the “official” blue receptacle. Be sure to place a trash liner in the receptacle you are using for recycling items.

Please Help

Everyone's cooperation is necessary. Please do your best to separate trash while on campus. You may have to look for a recycling receptacle, initially , but please be conscious of where you are placing your trash. Help others also if you see them placing recyclable items in regular trash.

Thank-you

DSU's Recycling Committee
